

Zydus gets USFDA approval for imaging drug

The product will be manufactured at the company's USFDA-approved injectable facility at Jarod near Vadodara and marketed through Zydus Pharmaceuticals (USA) Inc.

Ahmedabad: City-headquartered pharma giant Zydus Lifesciences has received final US Food and Drug Administration (USFDA) approval for its generic version of Indocyanine Green for

Injection, an imaging agent used in a range of surgical procedures and ophthalmic angiography.

The approval grants the company 180 days of Competitive Generic Therapy (CGT) exclusivity in the US, with commercial launch planned shortly. The product will be manufactured at the company's USFDA-approved injectable facility at Jarod near Vadodara and marketed through Zydus Pharmaceuticals (USA) Inc.

The reference product recorded annual US sales of \$125.8 million in the 12 months ended June 2026. tnn
